me: *goes to a website for the first time*
the website:

THE MOST DATA-HUNGRY SOCIAL MEDIA APP

Social media doesn't always have the best reputation when it comes to privacy. But which apps collect the most data? We went to the Apple App Store and checked the privacy details section of the most used social media apps to see what data each one collects from users.

The most data-hungry apps are on the left, with the length representing the number of data segments they require and the color representing the type of data.

TYPES OF DATA TRACKED

- Contact Info
- Health and Fitness
- Financial Info
- Location
- Sensitive Info
- Contacts
- User Content
- Browsing History
- Search History
- Identifiers
- Purchases
- Usage Data
- Diagnostics
- Other Data

Create quests and ask adventurers to take care of them
for some of your gold

Become a Wizard!

Complete quests and get paid gold
for your services

Become an Adventurer!

Let's go, in and out, 20 minute adventure!

*if you have a code, this is the place you need to be

20 minute adventure

Tehnologii Utilizate

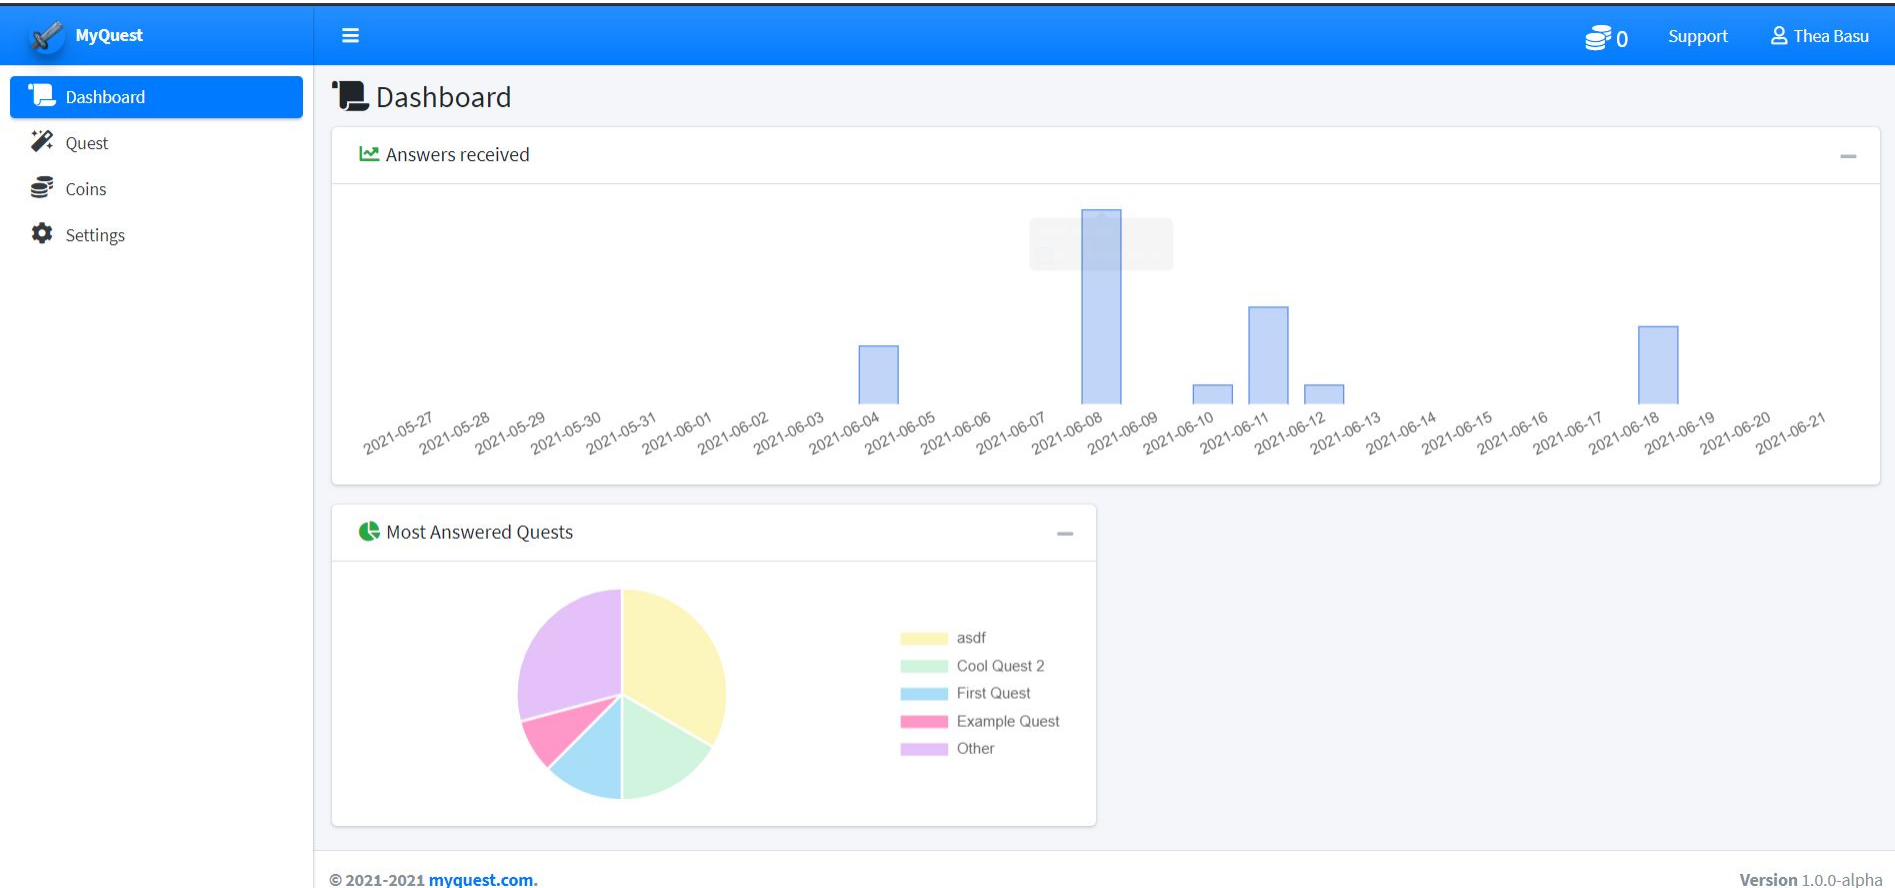

Pentru front-end: HTML cu AdminLTE + CSS cu Bootstrap + JavaScript cu jQuery

Pentru back-end: PHP

Pentru baze de date: MySQL (phpMyAdmin)

Pentru server: XAMPP

Wizard Dashboard

Adventurer Dashboard

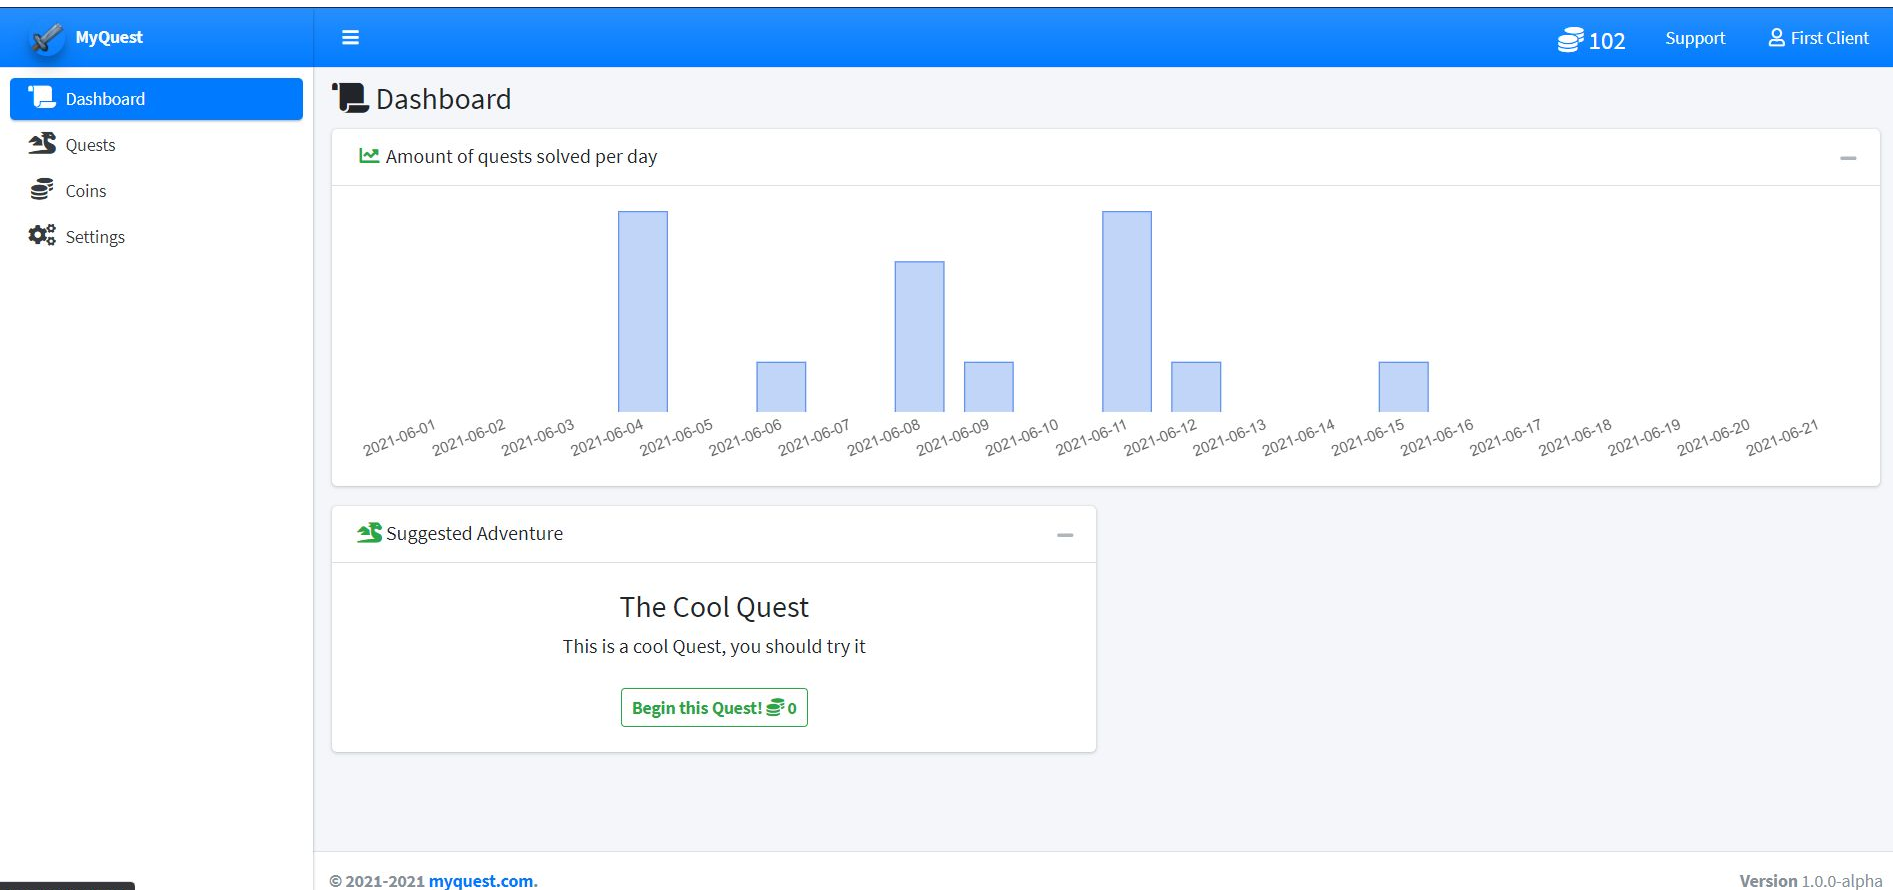

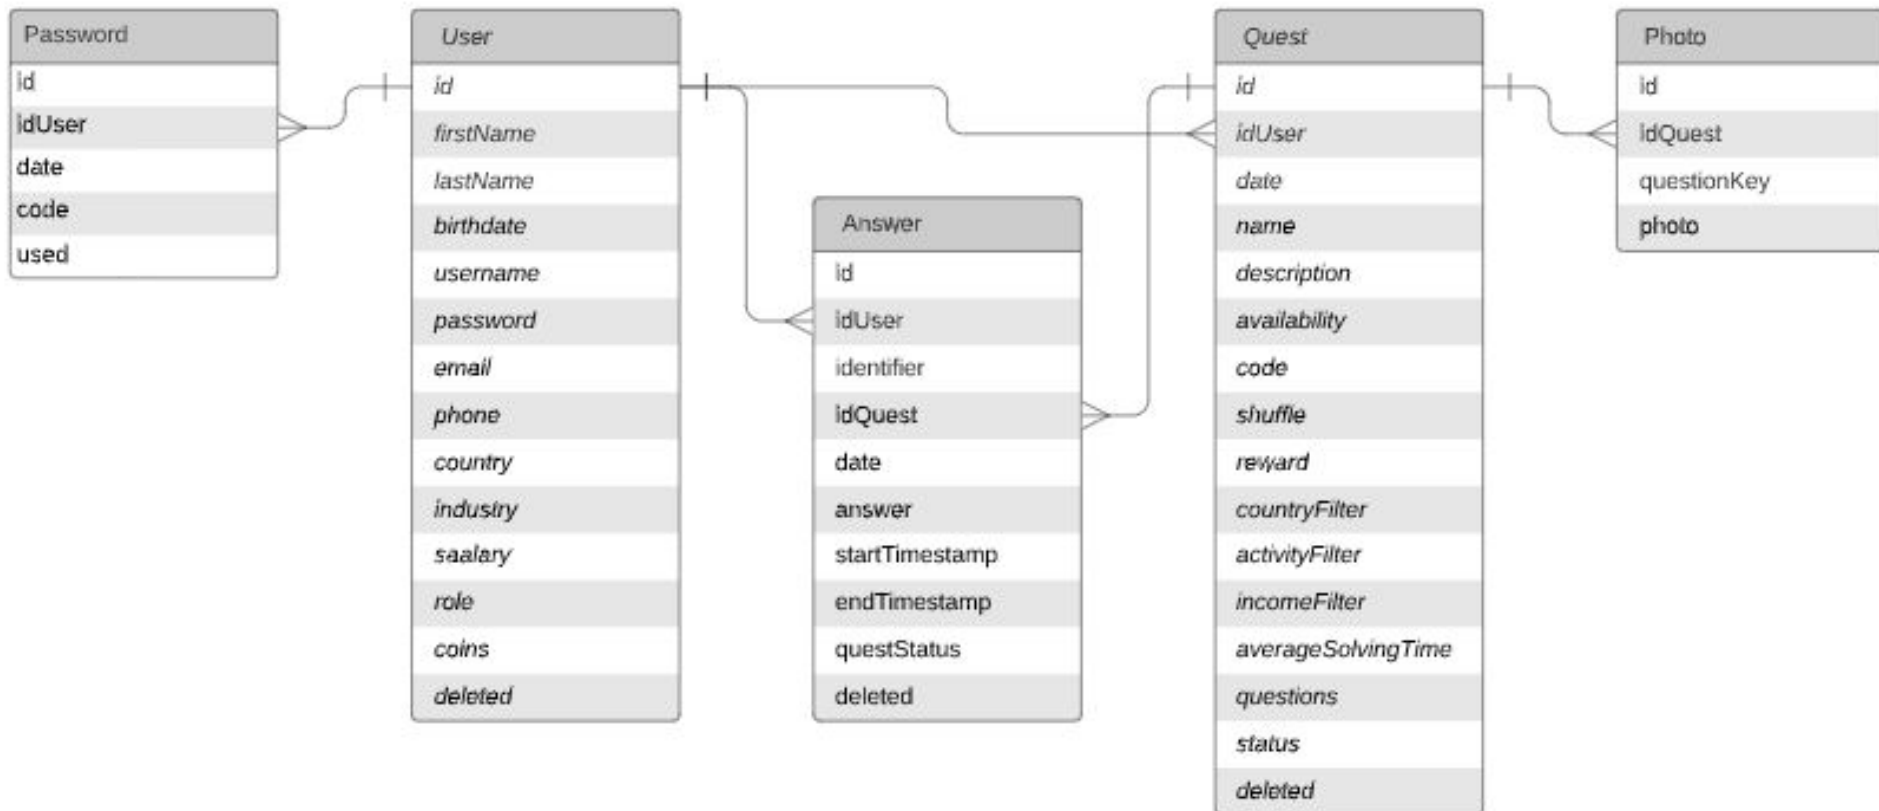

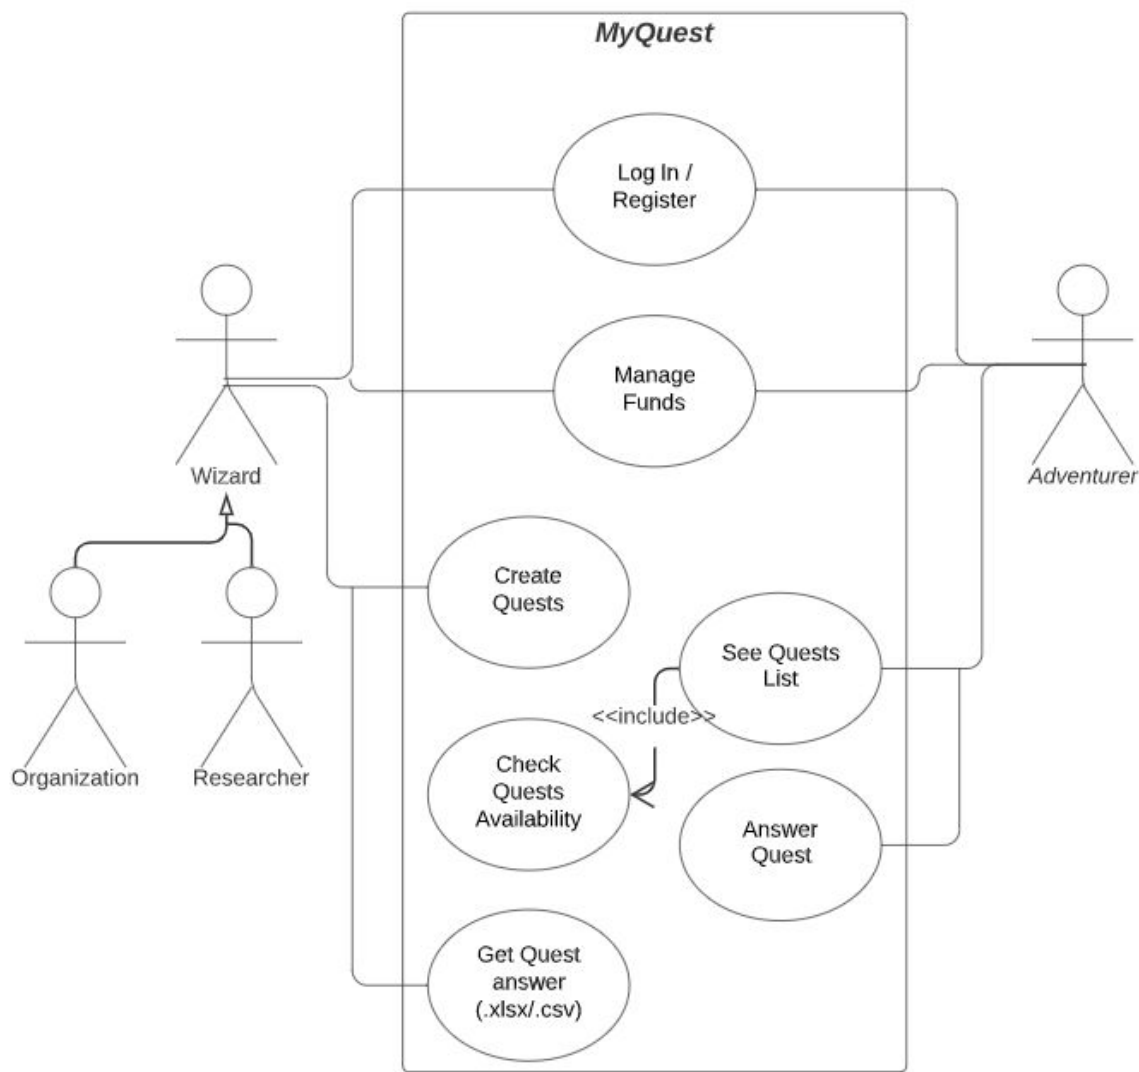

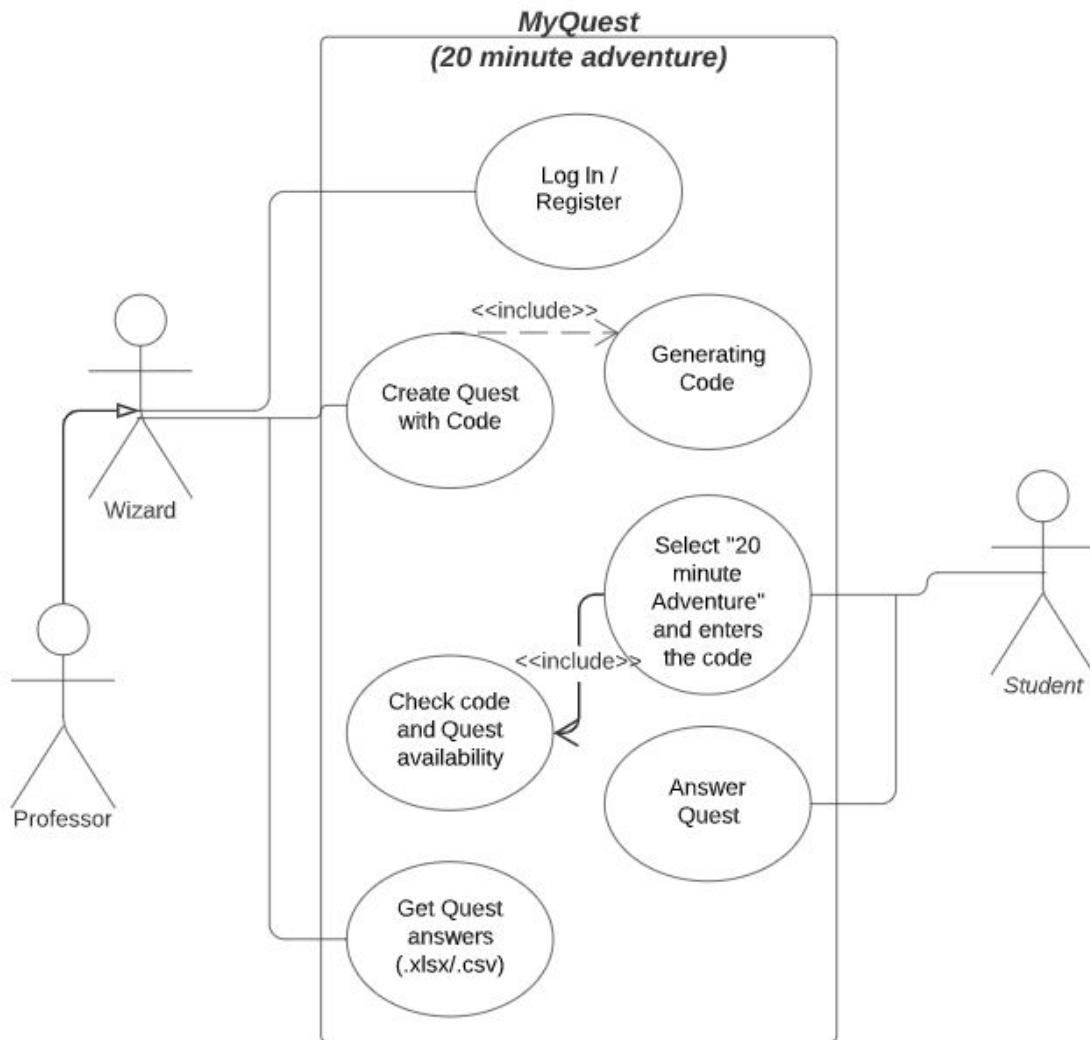

Tabelle Principale

Use Case 1

- Use case de bază în care avem un utilizator *Wizard* care crează un Quest și un utilizator *Adventurer* care îl rezolvă

Use case 2

- Use case în care utilizatorul *Wizard* este mai inventiv și folosește aplicația pentru a examina studenții

CONCLUZII

- Încurajarea companiilor de a utiliza alte metode pentru a strânge date personale
- Încurajarea oamenilor de a fi deschiși față de datele lor cu caracter personal
- Conștientizarea valorii datelor cu caracter personal
